

The fastener custom-made for our trim.

You're probably familiar with the Cortex® Fastening System for cellular PVC trim. It eliminates the need for caulking, sanding and painting nail holes. With plugs made from Ply Gem trim, there is a Cortex fastener specifically engineered for Ply Gem trim.

Replacing Wood For Good™

PLY GEM[®]
TRIM | MOULDINGS

Fastens faster.
Holds stronger.
Looks better.

With the Cortex Fastening System from Ply Gem, builders and remodelers can install our cellular PVC trim products in less time with plugs that match perfectly.

- Saves up to 35% installation time
- No need to caulk, sand and paint every nail hole
- No need to pre-drill holes
- Setting tool places fastener at correct depth every time
- Threaded fasteners provide a stronger hold than nails
- Plug is made from Ply Gem Trim product for a perfect match
- Plug is guaranteed to stay in place for the life of the project
- Available in smooth or wood grain finish
