Mastic products are backed by Ply Gem — a 75-year leader in pioneering performance home exteriors, with a superior warranty for exactly the home you want for decades to come. Homeowners can feel confident knowing Ply Gem always goes the extra mile. From innovative engineering to trend setting design and industry leading warranties, we’re a company you can trust with products you’ll love.
HAND-SPLIT SHAKE

Rich, realistic texture and deep random grooves replicate the beautifully rustic look of real cedar shakes.

PERFECTION SHINGLE TRIPLE 5"

Random gaps and a cedar-grain texture replicate the look of real cedar shingles.
PERFECTION SHINGLE DOUBLE 7"
Random gaps and a refreshed, realistic rough cedar-grain texture replicate the natural appearance of real cedar shingles.

HALF-ROUND
A beautiful accent for neo-traditional homes, our Half-Round features a rough cedar-grain texture and a distinct scalloped edge.

Beauty that lasts a lifetime.

COLORS AND STYLES TO PLEASE EVEN THE MOST PARTICULAR EYE.

HAND-SPLIT SHAKE
Deep, random grooves replicate the rustic look and texture of real cedar shakes.

WEATHERED CEDAR COLLECTION
Subtle shading and variations in color recreate the look of naturally weathered cedar.

SOLID CEDAR COLORS
The look of freshly painted cedar shakes.

PERFECTION SHINGLE
Random gaps and refreshed, realistic rough cedar-grain texture replicate the appearance of real cedar shingles.

WEATHERED CEDAR COLLECTION
Subtle shading and variations in color recreate the look of naturally weathered cedar.

SOLID CEDAR COLORS
The look of freshly painted cedar shakes.

BREATHE EASY
Unlike some fiber cement products, vinyl siding does not produce harmful silica dust — silica dust can cause lung disease.

GLOSS TEST
A digital readout microgloss meter is used to scan siding to determine if its gloss falls within a target range. Gloss is important to the aesthetic appeal of the siding.

OIL CAN TEST
Siding panels are placed under heat strips and saturated to 120° - 140°F to make sure the siding doesn’t warp or buckle.

Backed by Ply Gem’s V.I.P. Limited Lifetime Warranty. See warranty for complete details.
DESIGNED, ENGINEERED AND TESTED for long lasting beauty.

NO PAINT. NO STAIN. NO HASSLES.
Since vinyl doesn’t require paint or stain, harmful VOCs aren’t released into the atmosphere.

SAVINGS IN PAINTING COSTS OVER TIME
Based on an average-size home, repainting or staining can cost up to $6,000 every four years. Cedar Discovery never needs painting, caulking or patching because, unlike wood, it won’t crack, peel, rot or split.

BREATHE EASY
Unlike some fiber cement products, vinyl siding does not produce harmful silica dust — silica dust can cause lung disease.

HANG-TOUGH™ TECHNOLOGY
Exclusive formulation and process boosts durability so panels are more resistant to cracking, impact and thermal distortion. As an added benefit, rich color resides throughout the panel — virtually eliminating the appearance of nicks and minor surface scratches.

TIME-TESTED. CERTIFIED. AND MORE.
Mastic vinyl siding products are certified through the Vinyl Siding Institute (VSI), which sponsors third-party certification to ensure vinyl siding quality. Mastic vinyl siding meets or exceeds ASTM D3679 performance standards for impact resistance, weatherability, product thickness and performance in extreme conditions — all requirements in the VSI certification program.*

V.I.P. LIMITED LIFETIME WARRANTY
Premium guarantee of lasting quality and peace of mind — backed by Ply Gem, a trusted industry leader for 75+ years. See warranty for complete details.

TEST OUR VINYL. WE DO. RIGOROUSLY. RELENTLESSLY.

OIL CAN TEST Siding panels are placed under heat strips and saturated to 120° — 140°F to make sure the siding doesn’t warp or buckle.

WEATHERING Color retention (resistance to fading) is tested by subjecting Mastic products to real-time weather conditions and accelerated UV testing. This ensures that Mastic products will hold up in the most extreme environmental conditions.

RIGIDITY Panels are designed and engineered to be more rigid so the siding remains straight on the wall.

COLOR READ TEST Using a spherical spectrophotometer, a 10,000-watt xenon flash tube bounces light off a siding panel. This information is then analyzed to determine if the color falls within accepted ranges for color consistency and match.

VERTICAL HEIGHT IMPACT TEST Measures the product’s durability and ability to resist impact forces — the result of proper thickness, formulation and impact modifiers.

GLOSS TEST A digital readout microgloss meter is used to scan siding to determine if its gloss falls within a target range. Gloss is important to the aesthetic appeal of the siding.

*Consult the VSI website at vinylsiding.org for a current list of certified products and colors.
The Perfect Corner™ Corner Post.

Perfectly matches the texture and color of Cedar Discovery Hand-Split Shakes and Double 7” and Triple 5” Perfection Shingles.

AVAILABLE IN 35 COLORS to perfectly match Cedar Discovery shakes and shingles.

GREAT OPTIONS FOR A PROFESSIONAL FINISH:

THE PERFECT CORNER™ CORNER POST — matches the color and texture of Cedar Discovery panels.

TRADITIONAL CORNER POST OPTIONS — for a traditional look.

THE PERFECT CORNER™ CORNER POST WITH INTEGRATED RECEIVER POCKET

Virtually error-proof: panels slide easily into a recessed pocket — hides uneven edges, speeds installation and enhances aesthetics.

SELF-ALIGNING CORNER POST

Convenient “align-as-you-go” installation — rigid construction aligns to the corner and installs in a snap as you move up the wall.
Designed to absorb the shock of everyday life.

**FLEX = EASIER INSTALLATION**
Panels flex to ease installation in tight places — helps ensure a perfect fit and professional finish.

**WIND SPEED — RATED UP TO 230 MPH (varies by panel)**
Mastic’s proprietary design and engineering delivers a panel that achieves superior wind resistance.

**SURE POSITION LAPPING GAUGE™**
Helps ensure perfect panel-to-panel alignment and lapping regardless of temperature extremes during the installation process.

**C-LOK™ CONTINUOUS LOCKING SYSTEM + PATENTED TORNADO-TOUGH NAIL HEM**
Our exclusive continuous snap-in locking system runs the entire length of the panel — and provides up to twice as much support as less reliable “tab-type” systems.

Combined with our patented double-thick nail hem, this unbeatable combination provides greater stability and a stronger anchoring surface. The panel mounts securely to the wall, achieving maximum wind resistance.

The end result:
Speedy, accurate and secure installation and superior impact resistance.

**THE CEDAR DISCOVERY FIVE-POINT LOCKING SYSTEM: PEACE OF MIND X**
Slide-in system makes side-to-side locking virtually error-proof for the most secure installation.

**PATENTED FULL-PANEL SIDE-LOK™**
Slide-in system makes side-to-side locking virtually error-proof for the most secure installation.

**SIDE FLANGE WITH NAIL SLOT**
Yet another point of engagement — helps ensure a professional, seamless appearance.

There’s no cheat sheet for the test of time.

**V.I.P. LIMITED LIFETIME WARRANTY**
Premium guarantee of lasting quality and peace of mind — backed by Ply Gem, a trusted industry leader for 75+ years (see warranty for complete details).
The Cedar Discovery family of authentic shake and shingle siding has been certified by ASTM D7254 standards to offer superior characteristics for weatherability, impact resistance, windload resistance and flame spread.

This certification shows that a third party has determined that Cedar Discovery siding in solid colors meets or exceeds the industry standards. This determination is accomplished through a series of rigorous tests, unannounced inspections of plants and quality control plan reviews.

Because Cedar Discovery materials are made in the USA, certified to meet or exceed industry standards and covered under the comprehensive Ply Gem V.I.P. Limited Lifetime Warranty, you have peace of mind that the authentic beauty and low-maintenance requirements you enjoy today will last a lifetime.

Details on the certification process are available at polypropylenesiding.org.

*Consult the VSI website at www.vinylsiding.org for a current list of certified products.
Looking for Mastic products with features that can contribute to overall energy savings, lower maintenance and reduced environmental impact? These logos identify products recognized by third parties as supporting green building practices.

A HEALTHY RESPECT FOR THE PLANET — AND OUR CUSTOMERS.

Ply Gem can help you meet your sustainable building goals and earn points in leading green building certification programs. Our products offer features that positively contribute to sustainable practices, improved energy efficiency or lifecycle benefits of homes. All are foundation elements of sustainable building reflected in Ply Gem’s Enviro initiative.

For more information on how Mastic products can help you meet your sustainable building goals, refer to our Building to Make a Difference white paper available at mastic.com.
GIVE YOUR HOME
THE PERFECT FINISH

The big things like siding and windows make the house, but it's the finishing touches that make it home. So start with the rich texture of shakes or the crisp shadow lines of lap siding, but finish with charming shutters, expertly crafted trim or rustic stone. Creating your dream home exterior can start and finish with Ply Gem. Every product we make is designed to perform and look beautiful together. Because a house is a home when it's perfectly finished.
