American Tradition
When it comes to your home, your life and your peace of mind, Variform vinyl siding makes every moment matter. Since 1964, professionals and homeowners alike have trusted Variform for its high quality, durability and beauty, earning it one of the highest satisfaction rates in the industry.

You can choose from a wide array of styles and one of the largest color palettes in vinyl siding. It’s virtually maintenance-free and never needs painting. Variform is endorsed by Ply Gem Residential Solutions, a division of Cornerstone Building Brands, the nation’s leading exterior building products company. The Variform brand offers an impressive limited lifetime transferable warranty.

It all adds up to give you a beautiful home and time to enjoy life’s sweetest moments.

Choose with Confidence
As a brand that has spanned generations of building and remodeling, Variform has always been defined by new and innovative ideas. The brand was the first to create variegated technology, a double-staggered nail hem, and a rollover locking leg that have resulted in a more dependable, durable and securely fastened siding panel, even in the face of high-velocity winds. We use only the best raw materials and continuously test our products to ensure a lifetime of reliable performance. We’re as committed as ever to great products, so you can be confident you’ve chosen wisely.

Vinyl Siding is a Smart Investment
According to a recent study by REMODELING Magazine\(^1\), homeowners who install vinyl siding, on average, recouped up to 75.6% of the cost, making re-siding one of the top improvement investments a homeowner can make. And because vinyl siding never needs to be painted, you can save thousands of dollars over the life of your home.

Here's How American Tradition Works For You

American Tradition is a premium siding panel that provides excellent long-term protection for your home with little or no maintenance.

Never Needs Painting

American Tradition looks freshly painted for the life of your home. There’s no need for costly maintenance, scraping, caulking and painting.

Wind Velocity up to 178mph*

The patented Variform Tucktight® system with curled nail hem resists tearing in high winds. The angled design of the Anchor Lock® locks the panels together while allowing for expansion and contraction. The Standard Wind Load Design Pressure (DP) is 77.2 PSF**. And it’s so sturdy, it can resist a Wind Velocity of up to 178 mph.

Nominal Thickness

The .042” thick panels are more rigid and durable. They’re state-of-the-art engineered to resist dents and scratches.

Enduring Color and Texture

A Variform proprietary color process ensures that color is embedded throughout the panel for long lasting beauty. Premium dark colors have additional UV protection to resist fading. Each panel has an authentic wood grain texture that looks like freshly sawn cedar.

Sustainable Building, Responsible Living

We’re committed to reducing our impact on the environment and providing products that help ensure a sustainable future.

Sustainable Resources

- Vinyl products made from abundant natural resources²
- Minimal construction site waste
- Aluminum products contain over 80% recycled content
- Ply Gem facilities reuse and recycle

Energy Efficiency

- Vinyl siding requires less energy to manufacture than brick³
- National distribution network reduces energy use and emissions
- Variform insulated siding increases a home’s energy efficiency

Lifecycle Benefits

- Variform vinyl siding is durable and requires no site finish
- Vinyl siding should never require painting or staining
- All of our aluminum accessories are easily recyclable

* Tested in accordance with ASTM D5206. Windspeed rating will vary depending on specific code region and construction method. Refer to local building codes for detailed requirements concerning allowable wind loads and specified conversion tables for actual windspeed.

**Example wind velocity for 77.2 PSF is 178 MPH Zone B @ 30’ building height

This product has been certified by Home Innovation Research Labs. This means you can be assured that this product complies with specific green practice criteria in the National Green Building Standard (NGBS). Visit HomeInnovation.com/GreenProducts for more details.
Details, details, details.

The Variform brand has all the accessories and details you need to complete your project, including corners, trim, guttering, soffits, door surrounds and fascia. The Variform brand is endorsed by Ply Gem Residential Solutions, a division of Cornerstone Building Brands, the nation’s leading exterior building products company.
