Designed and tested for 24/7 peace of mind.

Whether you live on or near the coast, Silver Line® windows and patio doors with Coastal Watch Protection give you peace of mind.*

Our products are designed and tested to stand up to extreme coastal weather, giving you 24/7 protection without the need to buy, install, remove and store separate plywood panels or shutters.

*See your local code official for building code requirements in your area.
Our windows and patio doors with optional Coastal Watch Protection are designed to stand up to extreme wind, rain and wind-borne debris — perfect for your coastal home. Here’s what you get when you choose Coastal Watch Protection:*  
• Impact-resistant glass for protection from wind-borne debris and damaging wind  
• Structural reinforcements for added strength to withstand extreme weather conditions  
• Tested and certified to nationally recognized standards for strength and durability  
• 24/7 protection without the inconvenience of plywood panels or shutters  
• Our Limited Lifetime Warranty** for further peace of mind

National Fenestration Rating Council® (NFRC)  
ENERGY STAR® certified with select glass options  
IECC and Florida energy code

The Benefits of Impact-Resistant Glass

STORM PROTECTION  
Helps protect your home against extreme weather and flying debris.

SAVES ENERGY  
Helps shield homes from the sun’s heat, helping keep your home cool and lowering energy cost.

SAFETY  
Provides forced-entry resistance for peace of mind.

SOUND REDUCTION  
Reduces exterior noise for a quieter home.

SUN PROTECTION  
Helps block damaging UV rays from coming into your home.

Impact-resistant insulated glass is reinforced with a clear PVB plastic layer to resist impact. The insulating air space helps keep homes cool in the summer and warm in the winter.

Window & patio door types.

There are many different types of windows that differ not only in appearance, but also in how they function. Depending on your home’s style or your needs, you may wish to choose more than one type of window for your home.

**Double-Hung Windows**
A double-hung window has two vertically sliding sash in a single frame.

See page 6.

**Single-Hung Windows**
This window looks like a double-hung, but only the bottom sash moves up and down.

See page 9.

**Casement Windows**
Casement windows are hinged windows that, with a turn of a crank, open outward to the right or to the left.

See page 7.

**Awning Windows**
Awning windows are hinged at the top and open outward.

See page 7.

**Gliding Windows**
Gliding windows feature two sash, with at least one of the sash sliding horizontally past the other.

See page 8.

**Specialty Windows**
Specialty windows are stationary windows characterized by their shapes, including curves and angles.

See page 8.

**Gliding Patio Doors**
Gliding patio doors have one door panel that glides smoothly past another door panel, so they save room both inside and out.

See page 10.

Impact-Resistant Glass

Silver Line® windows and patio doors are available with a variety of energy-efficient, impact-resistant glass options. This not only helps you to achieve the comfort and energy efficiency you’re looking for, but also makes it possible to get windows and patio doors that are ENERGY STAR® v. 6.0 certified, all along the coast.

Low-E Glass
Low-E glass reflects heat in the summer and helps keep heat inside in the winter, making this a good choice in climates where both heating and cooling costs are a concern.

Low-E<sup>LS</sup> Glass
Low-E<sup>LS</sup> glass gives you the benefits of Low-E glass, plus it helps shield your home from the sun’s heat while letting sunlight shine through.

Low-E<sup>SC</sup> Glass
Low-E<sup>SC</sup> glass offers outstanding thermal performance with a subtle tint that blocks out even more heat from the sun.

Grilles

Grilles-Between-the-Glass
Grilles-between-the-glass add style to your windows and doors and make cleaning easy.

Simulated Divided Light
Provides the traditional look of individual glass panes.

Grille Patterns
Choose from the patterns below.

Colors

Silver Line windows and patio doors are available in White, Beige, Sandstone and Dark Bronze. The color is consistent throughout the frame and sash, making scratches virtually invisible.

Window Hardware

Durable hardware is color-matched to your window interior color.

*Dark Bronze with White vinyl interior has a 10-year limited warranty. Visit silverlinewindows.com for warranty details.
Respect for the environment is nothing new at Silver Line.

At Silver Line, we’re committed to conserving natural resources wherever we can, from designing and testing new products that will deliver greater energy savings for our customers to more energy-efficient delivery methods. We understand the importance of creating healthier and more energy-efficient homes.

ENERGY STAR® is a joint program of the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy (DOE) that helps consumers save money and protect the environment through energy-efficient products and practices. Silver Line is proud to be an ENERGY STAR partner with our continuing commitment to providing energy-efficient products.

Silver Line products are certified under the National Fenestration Rating Council’s voluntary third-party certification program designed to ensure accurate energy performance ratings and labeling.

Silver Line proudly participates in the WDMA Hallmark Certification program, which includes product testing and quality control process audits to verify that our windows and doors are produced in conformance with the industry standards for air and water resistance, and structural performance.
