REFLECTIVE TECHNOLOGY™

ADVANCED LEVEL PROTECTION FROM THE SUN.

The sun's intense heat and UV rays can take a toll on home exteriors causing colors to fade over time. Dark colored panels present a tougher challenge. They absorb more of the sun's damaging rays, which can lead to warping and distortion. Our SolarDefense Reflective Technology provides next-generation protection from the sun for the most durability and long-lasting beauty. From the inside out, these boards are engineered with breakthrough technology to resist heat, fading and distortion.

**NO FADE
NO DISTORTION
PROMISE™**

Ovation in SolarDefense
Brandy Wood

TOP LAYER

Disperses heat and helps resist fading by allowing light energy to flow both ways.

COOLING COMPOUND

Scatters light, reflecting heat away, keeping panels cooler.

BASE LAYER

Stands up to heat, preventing distortion.

NO FADE, NO DISTORTION PROMISE+

- Will not fade more than 1 Hunter unit for the first 5 years
- Will not fade more than 2 Hunter units from 6 years onward
- No heat distortion from climate or reflective light sources

Mastic by Ply Gem is part of the Ply Gem portfolio of brands and product lines, delivering the industry's most comprehensive line-up of designed exterior solutions—all meant to work together seamlessly to elevate curb appeal and provide enduring beauty to homes.
