

INTRODUCING VERSAFIT

VersaFit is our New Tight-Lock Installation Technology for Ply Gem Blocks, Mounts and Vents—a precision lock mechanism offering up to 6 locking positions in 1/8" increments to ensure a secure fit against virtually all cladding types.

VersaFit is Offered in the Below Ply Gem Products

- Octagon Gable Vent
- Round Gable Vent
- Rectangle Gable Vent
- Foundation Vent
- Intake Vent
- Exhaust Vent
- Jumbo Block
- Jumbo E Block
- Electrical Block
- Mini Block (Including Recessed)
- Universal Block

Key Benefits

VERSATILITY

Engineered to fit multiple cladding types with 5-6 locking positions per product, ranging from 1/2" to 1-1/4" heights.

BUILDER AND CONTRACTOR CONFIDENCE

One brand specification meets all cladding needs—eliminating guesswork and the need to source multiple product types.

STRONG PERFORMANCE

Tight, secure fit with multiple settings that eliminate rocking and loose installation.

CLADDING COMPATIBILITY

- 5/8" Fiber Cement
- 3/8" - 3/4" Vinyl Siding
- 1" EverPlank Siding
- 3/4" Engineered Wood
- 1-1/4" Insulated Vinyl
