

ProPanel from ClipStone is a large format mortarless stone veneer solution designed for easier and quicker installation.

- Ideal for more substantial residential and commercial projects
 - No seasonal restrictions on installation
 - Discreet seams • True masonry corners
 - Work out of your existing toolbox
 - Easy jobsite cleanup

Transition from siding to stone without changing your crew, tools, or schedule.

- Each ProPanel box comes with 2 panel sizes for added variation
- True masonry corners are available for an aesthetic that mimics traditional masonry
- 4 modern colors offer a selection that compliments a variety of personal design styles
- Colors and styles match that of the ColumnWrap collection for uniform designs
- No stud needed to pass wind testing – tested on 7/16" OSB
- Features a superior drainage plane due to the clip system holding the product off the wall in an "x" format
